A NEW MOBILE PHONE

**Read the text about how to make a new mobile phone work.
Then do tasks 1 and 2!**

Thank you for buying a PIKIA mobile phone. To make you mobile phone work, insert the SIM-Card, with which you activate the memory in your phone. The SIM-Card saves the phone numbers of your choice. Next find a plug socket and plug your phone in for at least two hours to charge it up. When the battery light turns green, switch your phone on and enter "MENU". Choose "SET UP" from the "MENU" to select a ringing tone. You can either use a ringing tone that is offered on the phone or download a different one from our website at www.pikia.com, where you can find a wide selection of ringing tones. Now your phone is ready to use and you are linked to the world!

TASK 1

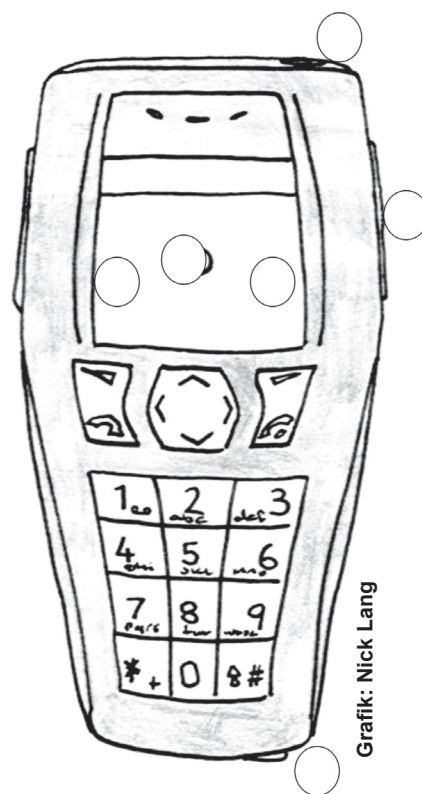

Put the sentences in the correct order:

- Our internet address is: www.pikia.com.
- Next plug your phone in for at least two hours to charge it.
- "Set up" allows you to choose your ringing tone.
- When your telephone is charged you can enter the menu.
- 1 Before you use the phone insert the sim-card.
- A different ringing tone can also be downloaded from the internet.
- Choose "set up" from the menu.
- Your phone is now ready for use.
- The sim-card activates the memory of your phone.

TASK 2

Fill in the correct number in the small circles on the drawing:

- 1 **"on" button** – on top of the phone
- 2 **volume button** – to the right of the display
- 3 **time** – in the middle of the display
- 4 **plug socket** – at the bottom of your phone
- 5 **battery indicator** – on the left side of the display
- 6 **signal indicator** – on the right side of the display
